About

Tender love & care with creative flair - and customer smiles!

I'm so excited you've come to visit! My name is Isabella. I love what I do and enjoy every moment of it. My greatest pleasure is seeing a smile on my customer's face while trying their clothes on.

The making of a tailoring alterations & dressmaking business

My business all started by inspiration in the fashion capital of the world – Italy, my homeland. After doing office admin work there for many years I came to New Zealand and dabbled in dressmaking and tailoring. After endless requests from family and friends, I branched out and made a business of dressmaking.

I've since enjoyed the satisfaction of having my dresses displayed in boutique shops and fashion shows. My dressmaking creations are unique and special, and some of them 'very quirky' as my friends say.

I can do anything from shortening pants, tightening skirts, to sewing professional quality designer dresses.

I have been in Auckland for the last 16 years and I love the people and community. I am so excited to be serving the local area of Mt Eden and beyond!
